

If you need a small, portable stencil creation machine to use in your production facility, the PT2600 can help you accomplish your goals! When the PT2600 is used in conjunction with the Östling stencil cartridge, stencil creation is a simple process.

The PT2600 delivers quality stencils either as a portable stand-alone unit or as a computer-attached printer. It can be connected to a PC or Mac so that virtually any graphics, signatures, logos, type fonts or images created on your computer can be made into a stencil. The possibilities are endless!

Features
