

The EU 80 is our lowest cost etch unit. Variable voltage controls are operated manually. Ideal for small batch sizes. Optional aluminum case complete with accessories (electrolyte, marking head, cable set, and felt-tip).

Features

- Non-corrosive electrolytes
- Non-smearing permanent marking
- No part deformation
- High-quality permanent marks
- Affordable

Specifications

Input Voltage	110-120 V AC
Output Voltage	24 V AC
Max Power	80 VA
Dimensions	155 x 200 x 150 mm
